To All Detachment Members:

I would like to add a new "service related" photo album to the "About Us" page. To do this I need photos of members taken during/related to their active duty.

If you would like to have your pictures displayed, send them to me. Make sure that they are secured together and clearly marked with your name(s) so they don't get mixed up with someone else's.

I realize there are very few digital photos of this period in your lives, but I can scan regular (reasonably good condition) photos into a digital picture.

Please provide (only) up to six photos max. for each detachment member that wants their photos shown. All photos (and the digital file created from them) will be returned to you.

Note: - No shoe boxes crammed with years of unsorted photos please. If you want me to create the digital file for each photo, only (up to) 6 for each member. Look at them carefully for quality. I have a medium/low end scanner, so faded, cracked photos, etc. won't come out very well.

We can work out between us how to get them - mail, delivery, pickup, hand over at the monthly meeting, etc.

Any questions, give me a call.
